

Retoucher for Product, Lifestyle and Food Photography for Print

Job Description

This is an experienced senior retouching role requiring excellent knowledge and use of Photoshop and an understanding of lighting, shadows and the photographic process in general. Experience in actively creating photographic imagery is an advantage but not a necessity.

Main Duties:

- Taking retouch briefs from Studio Producer, Head of Photography and clients directly.
- Creating accurate, natural looking retouching with excellent clipping paths from photography created in-house and from imagery supplied by clients.
- Excellent colour correction abilities.
- Colour correction to match the product, from CMYK printouts to give print-ready files.
- Working well in a team environment
- Ability to take briefs and interpret client-supplied information accurately
- Work proactively.
- Work in an organised manner and always follow studio procedures and protocols such as file naming and folder structures
- Collaborate with photographers on what is most expedient in relation to photography versus retouching time.

Skills & Experience Required:

- Proven ability to work under pressure and keep to deadlines.
- A trustworthy team player who can integrate with various departments.
- Good verbal and written communication.
- Excellent organizational skills.
- Experience with photographic equipment would be a benefit.
- Ability to use their own initiative in identifying problems.
- Ability to absorb verbal communication quickly.

Skills & Experience Desired

- A minimum of 5 years of consistent Photoshop experience
- A passion for creating stunning commercial imagery.
